

HEAT PUMP REBATE

Your electric utility and the Independent Energy Efficiency Program (IEEP) are sponsoring this program to provide rebates for customers who install qualifying high-efficiency heat pump equipment. **To receive your rebate without delay, fill out both sides of this form completely and mail it to the address below, along with:**

- ▶ A copy of your dated sales receipt (application must be submitted within 6 months of appliance purchase)
- ▶ A copy of your most recent electric bill
- ▶ Have your installation contractor provide and include an AHRI certificate and documentation that the air source heat pump is on the Northeast Energy Efficiency Partnership (NEEP) ccASHP Product List. For ground source heat pumps and water heater heat pumps, please provide ENERGY STAR® Certification.
- ▶ **Any rebate amount greater than \$1,250 requires pre-approval from the IEEP.** Preapprovals should include a completed rebate application along with AHRI certificate and documentation that unit being proposed is on the NEEP ccASHP list.

Mail to: IEEP, P.O. Box 2489, Syracuse, New York 13220-2489, or email to IEEPRebates@gmail.com (please *do not* send this form with your utility bill payment). **If you have questions or you require pre-approval, please contact the IEEP at (833) 239-0164 or IEEPRebates@gmail.com.**

▶ CUSTOMER INFORMATION:

Name: _____ Date of Installation: _____

Contact Name: _____ Email Address: _____

Installed Address (include City, State, Zip): _____

Mailing Address (if different): _____

Contact Phone: (_____) _____ Other: (_____) _____

Electric Utility: _____ Electric Account Number: _____

Installing Contractor Name: _____ Contractor Phone: (_____) _____

▶ GENERAL TERMS AND CONDITIONS:

1. Incentives are available for residential and commercial electric customers replacing equipment in existing buildings. Measures installed in newly constructed buildings are not eligible for rebates.
2. It is the responsibility of the customer to ensure that all requirements for the rebate are met and that all required documentation is provided.
3. Failure to provide any of the required information will prevent processing of the application.
4. The IEEP may choose to inspect locations to verify project completion, to verify energy savings, or to survey on customer satisfaction. Such inspections will be made at a time convenient to the applicant, with advanced notice to the applicant. Misrepresentation of installation location or measure eligibility may result in forfeiture of the incentive award.
5. The IEEP reserves the right in its sole discretion to terminate or modify this program at any time.
6. One rebate check will be issued to the customer for each approved and completed application. Limit one rebate per customer per year.
7. Installations must be completed in accordance with all laws, codes and other requirements applicable under federal, state and local authority.
8. Customers are responsible for any such tax implications associated with reimbursement. Your electric utility and the IEEP are not responsible for any tax consequences associated with any payments.
9. The customer verifies that they have not received any other incentives from any other state programs for the same equipment for which a rebate is being requested in this form.
10. Your electric utility and the IEEP assume no responsibility for performance of equipment and equipment warranty.
11. The equipment must be purchased new and installed within your electric utility's service territory within six months of receipt purchase date. Rebate applications must also be submitted within 6 months of purchase date.
12. The customer relieves the electric utility and IEEP of any and all liability associated with this project.
13. Heat pumps must be installed by a certified contractor. Self-installs allowed for heat pump water heaters only.

I, the undersigned, agree to the terms and conditions of this document. I understand that I am fully liable for any tax consequence that may arise from this reimbursement.

LAWN & SNOW REMOVAL EQUIPMENT REBATE

Did you know that gasoline powered yard care equipment lack strong emission controls and are widely recognized as a major source of air pollution? Millions of gallons of fuel are spilled each year during refueling and these spills can make their way into our drinking water. Switching to electric yard care equipment can significantly reduce the quantity of pollutants released into the environment each year.

Your New York municipal electric utilities and the Independent Energy Efficiency Program (IEEP) are sponsoring this program to encourage their customers to upgrade their mowers and snowblowers to electric battery powered equipment.

To receive your rebate without delay, fill out both sides of this form completely and mail (or email) to the address below, along with:

- ▶ A copy of your dated sales receipt showing the make and model number of the equipment purchased
- ▶ A copy of your most recent electric bill showing that you are a municipal electric utility customer

Mail to: IEEP, P.O. Box 2489, Syracuse, New York 13220-2489, or email to IEEPRebates@gmail.com

(Please *do not* send this form with your utility bill payment)

Mowing an average sized lawn using a gas-powered mower can produce the same amount of pollution as a 100-mile car trip.

▶ GENERAL TERMS AND CONDITIONS:

1. During the life of this program each customer account is limited to 1 push lawn mower, 1 riding lawn mower and 1 snow blower which must be used at the addressed served by the participating Electric Municipal Utility.
2. All rebates will be limited to a maximum of 25% of the purchase price.
3. Each electric account will be limited to \$250 for the life of this program.
4. Equipment must be purchased new, and not be refurbished.
5. Only equipment purchased on or after October 1, 2021 are eligible. This program will end September 1, 2023 or while funds last. The IEEP reserves the right in its sole discretion to terminate or modify this program at any time.
6. Rebate forms must be submitted within 6 months of purchase date.
7. The equipment must be used at an address served by a participating Electric Municipal Utility.
8. The equipment must have an external battery and the battery must be included with the purchase of the equipment.
9. Corded equipment is not eligible for this rebate.
10. Your electric utility and the IEEP assume no responsibility for performance of equipment and equipment warranty.
11. The IEEP reserves the right to inspect or verify purchase of rebated equipment.
12. Customers are responsible for any such tax implications associated with this rebate.
13. The customer relieves the electric utility and IEEP of any and all liability associated with this project.

(Please *do not* send this form with your utility bill payment)

Mowing an average sized lawn using a gas-powered mower can produce the same amount of pollution as a 100-mile car trip.

▶ GENERAL TERMS AND CONDITIONS:

1. All rebates will be limited to a maximum of 25% of the purchase price. For example, if the final purchase price is \$200 for a battery powered mower, the rebate will be reduced to 25% of the final cost, including sales tax and any manufacturer rebates applied, for a total rebate amount of \$50.
2. Each electric account will be limited to \$500 of incentives for the life of this program.
3. Equipment must be purchased new, and not be refurbished.
4. Only equipment purchased on or after September 1, 2023 are eligible. This program will end September 1, 2025 or while funds last. The IEEP reserves the right in its sole discretion to terminate or modify this program at any time.
5. Rebate forms must be submitted within 6 months of purchase date.
6. Corded equipment is not eligible for this rebate.
7. Your electric utility and the IEEP assume no responsibility for performance of equipment and equipment warranty.
8. The IEEP reserves the right to inspect or verify purchase of rebated equipment.
9. Customers are responsible for any such tax implications associated with this rebate.
10. The customer relieves the electric utility and IEEP of any and all liability associated with this project.
11. The customer verifies that they have not received other incentives from other state and/or federal rebate programs for the same equipment being requested in this form.

INSULATION PROGRAM

The Independent Energy Efficiency Program (IEEP) is sponsoring this program to encourage participating municipal utilities' residential electric customers to invest in the comfort and efficiency of their homes. Insulation and air sealing work hand in hand to save energy, money, and to increase the comfort of your home. Annually, each residential electric customer of participating Municipal Electric Utilities is eligible for one (1) incentive payment up to 75% of the cost up to a maximum IEEP incentive of \$5,000 of the installation expense incurred. Eligible measures include: **Attic insulation, exterior wall insulation, rim joist insulation, basement crawl space insulation, air sealing, weatherstripping, duct insulation, and ventilation.** All projects must be pre-approved by the IEEP in order to be eligible.

For pre-approval, please submit this completed form, a copy of your electric bill, and a detailed scope of work from your selected insulation contractor clearly listing all work and costs listed separately. The IEEP will return a pre-approval authorization and then the work can commence.

Once the work is completed and to receive your incentive, please submit this form and mail it to the address below along with:

- ▶ **This completed and signed form along with your IEEP Pre-approval number.**
- ▶ **A detailed copy of your dated invoice or installation contract showing proof of payment.**
- ▶ **A copy of your municipal utility electric bill that matches where the work was completed.**

Mail to: IEEP Rebate Program, P.O. Box 2489, Syracuse, New York 13220-2489
or email to IEEPRebates@meua.org

(Please *do not* send this rebate request to your electric utility.)

If you have any questions regarding the program, please contact the IEEP at (833) 239-0164 or IEEPRebates@meua.org.

Continued on back . . .

IEEP APPROVAL NUMBER (provided before work begins)	INCENTIVE AMOUNT	CONTRACTOR	CONTRACTOR PRICE	TOTAL IEEP INCENTIVE
	75% of the cost, up to a maximum of \$5,000			

► **GENERAL TERMS AND CONDITIONS:**

1. Incentives are available for municipal electric residential customers installing insulation and air sealing in existing buildings. Measures installed in newly constructed buildings are not eligible for rebates. 1-4 family units are eligible.
2. It is the responsibility of the customer to ensure that all requirements for the rebate are met and that all required documentation is provided. Failure to provide any of the required information will prevent processing of the application.
3. The IEEP may choose to inspect locations to verify project completion, to verify energy savings, or to survey on customer satisfaction. Such inspections will be made at a time convenient to the applicant, with advanced notice to the applicant. Misrepresentation of installation location or measure eligibility may result in forfeiture of the incentive award.
4. The IEEP reserves the right in its sole discretion to terminate or modify this program at any time.
5. One rebate check will be issued to the customer for each approved and completed application. Limit one rebate per customer per year.
6. Installations must be completed in accordance with all laws, codes and other requirements applicable under federal, state and local authority. Insulation contractors must be BPI Gold Star Certified in order to participate. Find contractors at BPI.org. Customer based self-installation projects are not allowed.
7. Customers are responsible for any such tax implications associated with reimbursement. Your electric utility and the IEEP are not responsible for any tax consequences associated with any payments.
8. The customer verifies that they have not received any other incentives from any other state programs for the same measures for which a rebate is being requested in this form.
9. Your electric utility and the IEEP assume no responsibility for performance of materials and material warranty.
10. The materials must be purchased new and installed within your electric utility's service territory within 6 months of IEEP approval date. Rebate applications must also be submitted within 6 months of installation date.
11. The customer relieves the electric utility and IEEP of any and all liability associated with this project.

I, the undersigned, agree to the terms and conditions of this document.
